STANDING COMMITTEE REPORT NO. 19-141

RE: C.R. NO. 19-242/H&SA

SUBJECT: ACCEPTING A GRANT FROM THE U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES, IN THE AMOUNT OF \$47,579.

AUGUST 01, 2016

The Department of H&SA stated that two small supplemental grants have been received to provide services and support to the programs funded by the substance abuse and mental health primary grant. The grant funding of \$47,579 in this C.R. No. 19-242, and \$33,744 in C.R. No. 19-247 will be used for support for mobile distribution of medicine, counseling and care of patients in all the four states.

A summary of activities and budget details for the entire FSM Substance Abuse and Mental Health Program is with the Committee and is available for review.

As this is a long standing program your Committee understands the challenges facing the Department of Health and Social Affairs regarding providing medical assistance, counseling, and prevention education and activities throughout our Nation. However, during the hearing your Committee did inquire as to the availability of hospital facilities for our most severely mentally ill citizens. The Committee was advised that there are currently no hospital facilities in our Nation for long term care of the mentally ill. The public hospitals are modestly equipped to provide short-term care for mentally ill patients. It has been the trend in the U.S. to promote care inside the family residence for most mentally ill patients both in the United States, and to promote the same in countries where they provide funding. Your Committee commented that it would like to see more clinical facilities made available for mentally ill patients who need support during a mental health crisis. It also commented that more needs to be done support families and caregivers of our mentally ill citizens in remote areas.

The Committee understands the many challenges facing the FSM Substance Abuse and Mental Health Program, and was pleased when the Department stated that they were actively seeking additional funding for this area. Your Committee advised the Department that this was one of the programs

that it intended to review during oversight hearings in the

Your Committee supports the work done by the Department and
believes it important to support services to one of our
most vulnerable groups' of citizens.

Your Committee on Health and Social Affairs is in accord
