but is from the U.S. Department of Health and Human Services, Centers for Disease Control and Prevention. The particular program this grant will support is the cancer registration program. The grant will fund the salary of the Cancer Registry Manager, his travel and consumables (office supplies).

The Department spoke extensively about the benefits of the Cancer Registry. Regionally this will allow for the tracking of trends in cancer and with much better data it will assist the Department in securing additional funding to assist our citizens. As with other data management initiatives this is important to quantify and study the overall health of our public.
